WESTGATE ANNOUNCES PARTNERSHIP

Westgate Door Industries is proud to introduce their new lines of Gate Automation, Barriers and Automatic Doors by FAAC.

For more than 20 years FAAC has been supplying automation solutions for residential, industrial and commercial markets.

The addition of FAAC Automation complements our gate manufacturing division with the ability for us to supply both the automation and the gate, “prepped for automation”, saving valuable time and money on site.

Westgate will be stocking FAAC product and has factory trained representation available to assist with all of your gate and automation needs, including in house hydraulic repairs.

FAAC Canada’s mission is to produce the longest life, most reliable and safest opening systems on the market. This is precisely why they are now a part of our winning team.
