CPS-RPNEN4-

MONITORED RETRO-REFLECTIVE PHOTO EYE

- Monitored Retro-Reflective Photo Eye for Commercial Door Applications
 - The first monitored UL 325-compliant retro-reflective photo eye
 - Built-in polarized beam technology sends and receives beam through two polarized filters to avoid interference from shiny objects
 - Powerful enough to detect obstructions and communicate with the reflector up to 50 ft. away in most commercial door applications
 - Requires power only on 1 side of the installation; reduces overall installation time by an average of 30%
-
- Adjustable photo eye assembly provides additional flexibility in installation alignment
 - Armored power cable connects easily to the LiftMaster® 3-Button station for power
 - LiftMaster model 65-7WIREL, Seven Conductor is an ideal complement to this photo eye
 - NEMA4 waterproof enclosure
 - Compatible with the following commercial door operators: Logic 4, Medium Duty, FDC, FDCL, FDOA, and FDOB
